

Pre-Nursing Advising Guide

Welcome to SENMC Carlsbad and the Department of Nursing! Our highly successful program, accredited by the Accreditation Commission for Education in Nursing (ACEN), and approved by the New Mexico Board of Nursing, offers a career ladder program with two options for students—a Practical Nursing Certificate (LPN) and/or an Associate Degree in Nursing (ADN). To get started, follow these steps:

1. _____ **Complete prerequisite courses with a “C” or higher in each**

- BIOL 2210, Human Anatomy and Physiology I*
- CHEM 1120G, Introduction to Chemistry*
- NUAS 1110C, Nursing Assistant Theory and Laboratory**
- HLSC 1510 Medical Terminology

*BIOL 2210, BIOL 2225, and CHEM 1120G must be taken within 5 years of application to the program, or if approved by Director of Nursing Program. Science courses cannot be taken more than twice, excluding withdrawals, unless approved by the Director of Nursing.

Waived for students who are currently certified as a nurse assistant (regardless of state) or completed a CNA class within the last 3 years if not currently certified, **if approved by the Director of Nursing.

2. _____ **Complete the HESI A2 exam**

The Health Education Systems, Inc. test (HESI) is designed to assess the academic and personal readiness of prospective nursing students. Students must earn a minimum composite score of 75% and a minimum score of 60% on each of the five academic sub-tests—Math, Reading Comprehension, Vocabulary and General Knowledge, Grammar, and Anatomy and Physiology. For best results, students are advised to take BIOL 2210 (Anatomy & Physiology I), BIOL 2225 (Anatomy & Physiology II), and any required developmental studies courses **prior** to taking the HESI.

Scores are valid for one year, and only two attempts are permitted within any 12-month period. We will use the attempt with the highest overall score providing all subtest scores are at least 60% and the composite score is at least 75%. We will not pick and choose highest subtest scores from different attempts. To sign up for the HESI, contact Carol Boyd in the Testing Center at (575) 234-9322, email: cboyd@senmc.edu, Office 2J in the Main Building, or stop by the Learning Assistance Center (LAC) in Room 253 at least 2 weeks prior to the test session you want. The HESI A2 costs \$55 and takes approximately 3-4 hours to complete.

3. _____ **Earn a cumulative GPA of 2.75 or higher in courses applicable to the nursing program**

Fractional grading is not used when calculating the nursing GPA, only the letter grade (i.e., the point value for A, B, C, D, F not for A+, A-, B+, etc.). Students may repeat a course they've passed to raise their nursing GPA but are advised that this may negatively affect their financial aid; consult with the financial aid office as needed.

4. _____ **Submit a nursing program application packet by the last Monday in May**

Applications are available on the Nursing Department website at <https://senmc.edu/academic-departments/nursing.html> and in the Nursing Administration Office in the Allied Health Building. To be complete, students must submit the nursing program application, college transcripts (unofficial are fine), and scores from the HESI exam. Students should contact the nursing department at 575-234-9300 to set up an appointment for advising with the nursing director prior to the May application deadline.

5. _____ **Apply for financial assistance. [FAFSA® Application](#) | [Federal Student Aid](#), [SENMC](#) | [Scholarships](#)**

*Acceptance into the SENMC nursing program is competitive.
Successful completion of prerequisites does not guarantee acceptance into the program.*

Advising Worksheet for Associate Degree in Nursing and Certificate in Practical Nursing

All courses must be completed with a “C” or higher

Nursing Program Prerequisites	Cr.	Grade Earned	Notes
Completion of any developmental studies as indicated by placement test			Grades for these courses are not used in nursing GPA
BIOL 2210, Human Anatomy and Physiology I	4		
CHEM 1120G, Intro to Chemistry	4		
NUAS 1110C, Nursing Assistant Theory and Laboratory ¹	6		
HLSC 1510 Medical Terminology	3		
HESI A2 test			Minimum 75% composite and 60% on each subtest
Nursing GPA of 2.75 or higher			
Application submitted by last Monday in May			
Additional Courses Required for Degree		Grade Earned	
ENGL 1110G, Composition I ³	3		
MATH 1130G, Survey of Mathematics or MATH 1220G, College Algebra	3		
CEPY 1120G, Human Growth and Behavior ³	3		
PSY 1110G, Introduction to Psychology ³	3		
BIOL 2225, Human Anatomy and Physiology II ²	4		
Nursing Program	Cr.	Grade Earned	Notes
NURS 1153, Medication and Dosage Calculation	1		
NURS 1154C, Physical Assessment	3		
NURS 1120C, Fundamentals of Nursing Lecture and Lab	6		
NURS 1157C, Maternal/Child Health Deviations Lecture/Laboratory	8		
NURS 2210, Pharmacological Requisites of the Childbearing Family	1		
NURS 1146C, Common Health Deviations/Lab	(6)		Required only for Practical Nursing Certificate
NURS 2215, Pharmacological Requisites of Simple Health Deviations	1		Associate degree students only
NURS 2246C, Health Deviations I	7		
NURS 2214C, Psychiatric Mental Health Nursing Theory and Clinical	3		
NURS 2216 Pharmacological Requisites of Complex Health Deviations	1		Associate degree students only
NURS 2256C, Health Deviations II	8		
NURS 2999, Nursing Capstone: Management of Patients with Health Deviations	2		
TOTAL:	74 CR/H		

¹ Waived for students who are currently certified as a nurse assistant (regardless of state) or completed a CNA class within the last 3 years if not currently certified.

² BIOL 2225 and PSYC 1110G must be completed prior to the start of the second semester (spring) in the nursing program

³ ENGL 1110G and CEPY 1120G must be completed prior to the start of the second year (fall) in the nursing program
