To whom it may concern,

This letter is to confirm that U.S. Drone Soccer is a sole source product with proprietary hardware and training developed, sold, and distributed exclusively by Drone Sports, Inc.

We are national representatives to the World Air Sports Federation which governs Drone Soccer as an international activity. No other American company provides a similar educational solution encompassing drones, team activities, and professional development training with ongoing support.

This product must be purchased directly by institutions from Drone Sports, Inc. at the address listed above. There are no agents or dealers authorized to represent this product.

Additionally, competition is precluded by the existence of an exclusive worldwide distribution agreement with the manufacturer of the Saker DS200 Bantam Drone Soccer Ball. There are no other educational products that would serve the same purpose or function as U.S. Drone Soccer, and there is only one price for the above products because of exclusive distribution and marketing rights.

If you desire additional information, don't hesitate to contact me at (719) 645-6102 at any time or visit our website at www.dronesoccer.us. Thank you for your interest in our products and services.

Sincerely,

Eric Richard
